

Settled Trustee Advertisement

SETTLED is currently seeking three new trustees to strengthen our board and support the work of this passionate charity as the next few years will bring enormous challenges. It is an exciting time to join us.

About SETTLED

SETTLED is a national charity set-up 18 months ago to help meet the needs of vulnerable European Citizens in the UK post BREXIT. 2021 will bring enormous challenges for anyone affected by BREXIT, no more so than European citizens who have made their home in the UK.

SETTLED has already provided information, advice and support to thousands of vulnerable Europeans, in numerous languages. Thanks to SETTLED, they will be able to continue living and working lawfully in the UK.

Most of our services are currently online through inter-active video links. More information can be found out at www.settled.org.uk

What does the role involve?

You will join a small board of committed professionals passionate about helping vulnerable European citizens at this difficult time. All trustees work closely with our very dedicated staff team.

We are specifically seeking trustees with expertise in the following fields: **charity finance, IT and community organising.**

As a SETTLED trustee, you'll play a vital role in keeping the charity on track and accountable to the vulnerable people we support. You will apply your professional experience towards shaping our strategy on fundraising, governance, volunteers management and other areas of work.

Who should apply?

Applications are welcome from everyone with the relevant passion and experience and being a European citizen whose home is in the UK would be an advantage.

Our board comprises many nationalities and we'd welcome those from an ethnic minority background.

How do I apply?

Our deadline for applications is 5th January 2021. Please send your CV along with an accompanying letter explaining your reasons for applying to trustees@settled.org.uk. We have provided a detailed trustee recruitment pack and person specification. We highly recommend going through the recruitment pack thoroughly before you start your application.
